

Considering a Career in Science?

Honours and PhD Information Session at The Australian Regenerative Medicine Institute

Invitation
extended to
students and
their family

Regenerative
medicine is one of the
most important and
promising new arenas
for research in the life
sciences.

The Australian Regenerative
Medicine Institute is at one
of the world's largest
regenerative medicine and
stem cell research hubs. We
offer a great research
environment, brand new
facilities, and the
opportunity to work with a
team of international
experts in regenerative
